Please read all of the instructions and look at the pictures before attaching the ProClip.

1. Press the thin end of the enclosed gap opener into the gap between the center console panel frame and the dashboard sidewall, to widen the gap. Use the enclosed alcohol pad to clean the area where the ProClip is to be installed. Peel off the adhesive tape cover on the ProClip.

2. Hook the angled edge on the left side of the ProClip around the edge of the panel surrounding the instrument panel.

3. Push firmly forward on the right side of the ProClip face plate so the angled edge flexes forward and hooks into the gap below the gap opener. Pull out the gap opener.

4. The ProClip is in place.
